

# dipit

Dip & Rinse Dye for Floral Materials

- ▶ a dip & rinse floral dye, Dipit colors fresh blossoms by immersing flower heads into the dye then rinsing away excess color
- ▶ beautifully colors silk flowers, dried materials and floral accessories too
- ▶ creates stunning color with a smooth, natural appearance
- ▶ use DIPIT where large quantities of flowers require coloring

*available in ten colors —*

Holiday Red • Perfect Pink • Deep Blue  
Larkspur Blue • Ice Blue • Purple • Lavender  
Holiday Green • Yellow/Yellow • Orange

*— these colors blend beautifully*

Experiment or use the mixing guide on the backside, and you'll come up with colors that suit your every need.

## DIRECTIONS

1. USE high quality, fully bloomed white or light colored flowers.
2. POUR Dipit into a wide mouth container or bucket for easy dipping.
3. DIP blossoms into dye for approximately 2 seconds.
4. SHAKE excess dye back into container or bucket, it's reusable.
5. RINSE blossoms thoroughly in clear water and shake again over a drain.
6. LET DRY before handling to avoid staining of clothing, etc.

## NOTES

- Suggest using latex gloves while dyeing to protect hands from staining.
- For darker shades, re-dip flowers after they have dried.
- For lighter shades, dilute dye with DESIGN MASTER Dipit Thinner.
- Dip dyeing blossoms can be messy. Protect work area and clothing from splatter.
- Available in quart or gallon size.

## DISPOSAL

Dipit dyes are not water based and should not be poured down the drain. The disposal method we recommend for leftover dye solution is to absorb it into a material like sawdust, wood chips or newspaper. These may simply be disposed of in their normal trash.

# DIPIT Dyes / Color Mixing Guide
